Is Your Dog a Good Fit?

This programme is ideal for dogs who:

- Bark, lunge, or react to people, dogs, vehicles or anything else!
- Can settle in a new home environment
- Can be left for 2 hours in a crate or closed-door room
- Do not have separation anxiety
- Are ready for consistent, force-free training

We have over 10 years' experience with board-and-train so we are able to help most dogs settle in and adjust very quickly to our homes. However, we also offer a 3-day trial stay if you have any concerns before booking the full stay.

The Process

1. Initial Zoom Consultation: to understand your dog's background and training goals
2. Arrival Day: begin with a walk together at a neutral location, and then your dog will have time to settle in
3. Daily Updates + Weekly Zooms: stay informed and in the loop
4. Mid-Stay 1:1 (optional): to review and participate in your dog's progress
5. In-Person Handover to transfer the skills to you with real-life coaching
6. 1-Month Post-Stay Coaching: weekly 1-hour Zoom sessions for support
7. Follow-Up 1:1s at a discounted price to keep progress going
